

January 25<sup>th</sup>, 2007

KERR Interior Systems Ltd. And Composite Building Systems Inc. have been dealing with Steelform Building Products almost exclusively for the last 2 years. In that time we have all done through some growing pains, but the products they have supplied and the service they have given us have been "Second to None"! Our customers have been very happy with the Steelform Building Products line of DeltaSTUD, MegaJOIST and Ultra-Bond Composite decking in particular. We are very impressed with the performance of the products, and the ingenuity shown in developing them.

Thank you,

Darryl Weibe  
President  
KERR Interior Systems Ltd and Composite Building Systems Inc.

KDH Drywall (1997) LTD has been involved with Steelform Building Products as our primary Steel Stud and accessory supplier for almost 5 years. Service and Quality is one of the major reasons for our companies relationship with Steelform Building Products as in the "Just In Time" world of construction this is very important. Steelform DeltaSTUD, MegaJOIST and Ultra-Bond Composite Decking as well as all that is needed in the Lightgauge Framing industry has proven that Steelform Building Products is on the front of our industry.

Thank you,

Dwayne Nelson  
President  
KDH Drywall
